by visiting the traditional places of open defecation at night and in the wee hours of the morning.

- The team should ascertain what all IEC/BCC activities have been conducted in the GP during the past year. They should also look for posters/ wall writings etc., that have been put up in the GP.
- The Survey team shall visit all the villages /clusters in the GP to assess the General cleanliness in the village and see if any garbage/waste is dumped near any Public Drinking Water source/ Public Areas/Panchayat Bhawan etc., The survey team shall also see if there are any choked drains in the village or pools of stagnant water that can act as breeding place for mosquitoes and report the same.

Survey Methodology to be adopted :-

- a) Households to be surveyed should be selected following Cluster Random sampling technique so as to invariably represent all the villages or clusters of GP in the same proportion as total BPL & APL and SC/ST households in the GP. The respondents covered should include a fair sampling of women.
 - b) For individual household latrines, availability of water for each household and for proper system of SLWM at household level, the surveying team will visit the applicant PRIs and conduct the survey as per the sample mentioned below.
 - GPs having less than 1000 households = Minimum 50 households to be surveyed.
 - GPs having less than 1000 households = Minimum 70 households to be surveyed.
 - c) The surveying team will visit the applicant PRIs and conduct the survey in all the Community Toilets/Anganwadi Toilets in the GP.
 - d) For solid & liquid waste management, the survey team will see the general cleanliness and proper system of transportation and disposal in village level as per NGP guidelines (scoring pattern).
 - e) Information Education Communication.
- Check in the GP at per the NGP guidelines scoring pattern criteria.
